WHY US?

1. **Qualitative RM, API and Excipients:** We use raw material of DMF Grade (Drug Master File) and International Quality Excipients, reduces chances of toxicity and gives better results. Best quality coating material to ensure top class tablet/capsule finish, with no defects. We use pharmaceutical-grade 1 fresh gelatin for the softgel shell, ensuring compliance with regulatory standards and safety, which increases the shell life of softgel and decrease the chances of leakage. In terms of dry-powders we have expertise in controlling the particle size of the dry-powders, as it's a critical factor influencing dissolution rates, we have uniform mixing techniques which helps to achieve homogeneity in dry-powder formulation, contributing to accurate dosing and effectiveness. Microbial Control: We have
2. **Production and Utility** – Best in class manufacturing equipments and highly skilled manpower to ensure proper stability control. WHO-GMP accredited manufacturing facility, to ensure every batch is validated with best-in-class quality
3. **Cross Contamination** – Low humidity manufacturing and air locks cubicle for proper pressure, temperature, humidity and environment controls
4. **Product Efficacy** – Every batch is validated with WHO-GMP approved quality checks to ensure product quality and efficacy. We provide COA testing reports against each batch you place with us.
5. **Packaging and Storage** – Storage of API and finished goods at optimum temperature and humidity, Sample testing at all stages of manufacturing, best in class packaging material, with optimum thickness of foil.
6. **Shelf Life** – Better stability of product, with best-in-class manufacturing and packaging techniques ensures optimum shelf life, with no degradation.
7. **After Sales Support** – Support of technical team, for resolution of any complaints / queries from the market.
